she/her/hers ◊ jiaminli.icy@gmail.com ◊ Ph.D. in Computer Science

RESEARCH INTERESTS

I am broadly interested in Systems for Machine Learning with a specific focus on the following topics:

- Systems tailored for large language models: Optimizing the LLM training and inference
- Resource scheduling in GPU clusters: Designing efficient scheduling algorithms for DNN workloads
- Distributed training & inference: Accelerating large-scale distributed DNN tasks
- Adaptive & sparse computation: Exploring new computing paradigms to effectively scale DNN models

WORK & RESEARCH EXPERIENCE

Senior Researcher - Microsoft Research, Vancouver, BC, Canada Apr. 2024 – Present
Manager: Dr. Peng Cheng
TBD

Research Intern, ByteDance MLSys Team, China May. 2019 – May. 2021
Supervisor: Dr. Yibo Zhu
We design an elastic scheduler for GPU training clusters. The key idea is to exploit cluster-level elasticity by loaning idle inferences servers for training jobs and job-level elasticity by scaling training jobs to better utilize the dynamic resource pool.

Part-time Research Assistant, City University of Hong Kong, Hong Kong Sep. 2018 – Nov. 2018
Supervisor: Prof. Hong Xu
We propose an adaptive gradient aggregation approach to accelerate distributed DNN training. The key idea is to selectively transmit the gradients with non-negligible large updates, effectively reducing data size.

Backend Developer Intern, Jardine Matheson & Co. Limited, Hong Kong May. 2017 – Jun. 2018
Design and develop web services to facilitate employee recruitment for the Group Human Resources department.

EDUCATION

The University of Texas at Austin, Austin, TX, United States Apr. 2023 – Dec. 2023
Visiting Researcher at UTNS Group, Department of Computer Science.
Advisor: Prof. Aditya Akella
Project: LLEGO: Finer-Grained Large Language Model Serving in Multi-tenant Clouds

City University of Hong Kong, Hong Kong Sep. 2019 – Feb. 2024
Ph.D. Candidate, Department of Computer Science.
Advisors: Prof. Cong Wang, Prof. Hong Xu (The Chinese University of Hong Kong)
Thesis: "Efficient Scheduling of Distributed Deep Neural Network Workloads"

City University of Hong Kong, Hong Kong Aug. 2015 – Jul. 2019
B.S., Department of Computer Science (First Class Honours).

Advisor: Prof. Shiqi Wang
Final Year Project: “Mobile Face Anti-spoofing with Deep Learning”

University of Missouri, Columbia, MO, United States
Big Data Analysis Summer Program, Department of Computer Science.

Jul. 2017 – Aug. 2017

PUBLICATIONS

Preprints

- [P3] Yitao Yang, Qiang Su, Xin Tan, **Jiamin Li**, Chen Bai, Xiaomeng Hu, Bei Yu, Tsung-Yi Ho, Baochun Li, Hong Xu, “Vico: Passive Fault Tolerance for Resilient Distributed Training”, in submission.
- [P2] **Jiamin Li**, Le Xu, Cong Wang, Hong Xu, Aditya Akella, “LLEGO: Finer-Grained Large Language Model Serving in Multi-tenant Clouds”, in submission.
- [P1] Xin Tan, **Jiamin Li**, Yitao Yang, Jingzong Li, Hong Xu, “Arlo: Serving Transformer-based Language Models with Dynamic Input Lengths”, in submission.

Conference Proceedings

- [C4] **Jiamin Li**, Qiang Su, Yitao Yang, Yimin Jiang, Cong Wang, Hong Xu, “Adaptive Gating in Mixture-of-Experts based Language Models”, Empirical Methods in Natural Language Processing (EMNLP Main conference), 2023. (Acceptance Rate = 21.3%)[Link]
- [C3] **Jiamin Li**, Yimin Jiang, Yibo Zhu, Cong Wang, Hong Xu, “Accelerating Distributed MoE Training and Inference with Lina”, USENIX Annual Technical Conference (ATC), 2023. (Acceptance Rate = 18.4%) [Link]
- [C2] **Jiamin Li**, Hong Xu, Yibo Zhu, Zherui Liu, Chuanxiong Guo, Cong Wang, “Lyra: Elastic Cluster Scheduling for Deep Learning”, ACM European Conference on Computer Systems (EuroSys), 2023. (Acceptance Rate = 16.1%) [Link] (*Deployed partially at ByteDance*)

SELECT AWARDS

ATC Student Travel Grant	USENIX ATC	2023
ML and Systems Rising Stars	ML Commons	2023
EuroSys Student Travel Grant	ACM EuroSys	2023
Full Postgraduate Studentship	City University of Hong Kong	2019 – 2023

TEACHING ASSISTANT

2022 Fall, 2019 Fall	CS2311, Computer Programming
2022 Spring, 2020 Spring	CS4296 & CS5296, Cloud Computing
2021 Fall	CS4394 & CS5294, Information Security and Management
2021 Spring	CS4293 & CS6290, Topics on Computer Security
2020 Fall	CS5222, Computer Networks and Internets

PROFESSIONAL SERVICES

Artifact Evaluation Committee	ACM CoNEXT 2022, MLSys 2023, ACM EuroSys 2023, USENIX OSDI 2023, USENIX ATC 2023, ACM SOSP 2023, ACM SIGCOMM 2023, ACM EuroSys 2024, USENIX FAST 2024
Technical Program Committee	IEEE IJCNN 2023
Reviewer	IEEE/ACM Transactions on Networking, IEEE Transactions on Services Computing

TECHNICAL SKILLS

Programming Languages	C++, Python, Bash, Go, \LaTeX
Machine Learning Systems	PyTorch, MXNet, DeepSpeed, HuggingFace, NCCL, CUDA
